

Easily convert Microsoft® PowerPoint® into engaging presentations or interactive eLearning courses!

Swift Presenter is an affordable rapid authoring tool that automatically converts Microsoft® PowerPoint® presentations into Internet-ready presentations and eLearning courses - in just a matter of seconds.

It is a PowerPoint® plug-in that automatically converts your PowerPoint 2000, XP/2002, 2003 and 2007 presentations into a highly compressed Internet-ready presentation in the Macromedia Flash™ format.

Key features include:

- **Rapid Flash™ Authoring** - Use powerful new tools that dramatically extend PowerPoint®'s capabilities and allow you to create interactive Flash™ presentations and online training.
- **Record Narration** - Easily record and synchronize a voice narrative with your PowerPoint® slides and animations.
- **Background Audio** - Enhance your presentation by including a background audio track.
- **Edit Audio** - Import, edit and synchronize standard audio files with your PowerPoint® slides and animations.
- **Organize Slides** - Group slides under section headings for quick and easy navigation in the converted presentation.
- **Intuitive Controls** - Familiar control buttons, such as Play, Pause, and Next allow end-users to control the presentation experience.
- **View Notes** - View accompanying presentation notes from the original PowerPoint® presentation.
- **Publish to LMS** - Set the program to load the converted Flash™ presentation into Evolve Learning Manager for advanced distribution, management, and tracking options.
- **Quizzes and Surveys** - Insert interactive Flash™ quizzes and surveys, choosing from nine different question types.
- **Import Images** - Batch-import images onto individual slides for quick presentation building.
- **Logo Placement** - Place your logo on the player skin to emphasize your brand with your customers.
- **Conversion Fidelity** - Preserve your PowerPoint® 2000, XP and 2003 custom animations in the converted Flash™ presentation.
- **SCORM** - Generate a SCORM 1.2 conformant content package.
- **Flexible Completion Rules** - Set passing score and determine which slides and quizzes are required to complete the presentation.

Create a Flash Multimedia presentation in Three Easy Steps!

1. Create a PowerPoint Presentation
2. Record an Audio Narration
3. Publish to Flash
