

## Course Description

The ICD is currently the most widely used statistical classification system for diseases in the world. ICD-9-CM is an adaptation created by the U.S. National Center for Health Statistics (NCHS) and used in assigning diagnostic and procedure codes associated with inpatient, outpatient, and physician office utilization in the United States. The ICD-9-CM is based on the ICD-9 but provides for additional morbidity detail. It is updated annually on October 1.

It consists of two or three volumes:

Volumes 1 and 2 contain diagnosis codes.

Volume 3 contains procedure codes.

The Medical Coding and Billing ICD-9 course provides the training necessary for medical administrative professionals to comply with the current standards.

## Evolve e-Learning Solutions courses include:

### Expert Instructor-Led Training

Evolve e-Learning Solutions uses only the industry's finest instructors in the IT industry. They have a minimum of 15 years real-world experience and are subject matter experts in their fields. Unlike a live class, you can fast-forward, repeat or rewind all your lectures. This creates a personal learning experience and gives you all the benefit of hands-on training with the flexibility of doing it around your schedule 24/7.

### Visual Demonstrations & Multimedia Presentations

Our courseware includes instructor-led demonstrations and visual presentations that allow students to develop their skills based on real world scenarios explained by the instructor. Evolve e-Learning Solutions always focuses on real world scenarios and skill-set development.

### Quizzes & Exam Simulators

Evolve e-Learning Solutions's custom practice exams prepare you for your exams differently and more effectively than the traditional exam preps on the market. You will have practice quizzes after each module to ensure you are confident on the topic you have completed before proceeding.

This will allow you to gauge your effectiveness before moving to the next module in your course. Evolve e-Learning Solutions Courses also include practice exams designed to replicate and mirror the environment in the testing center. These exams are on average 100 questions to ensure you are 100% prepared before taking your certification exam.

### Social Learning & Networking

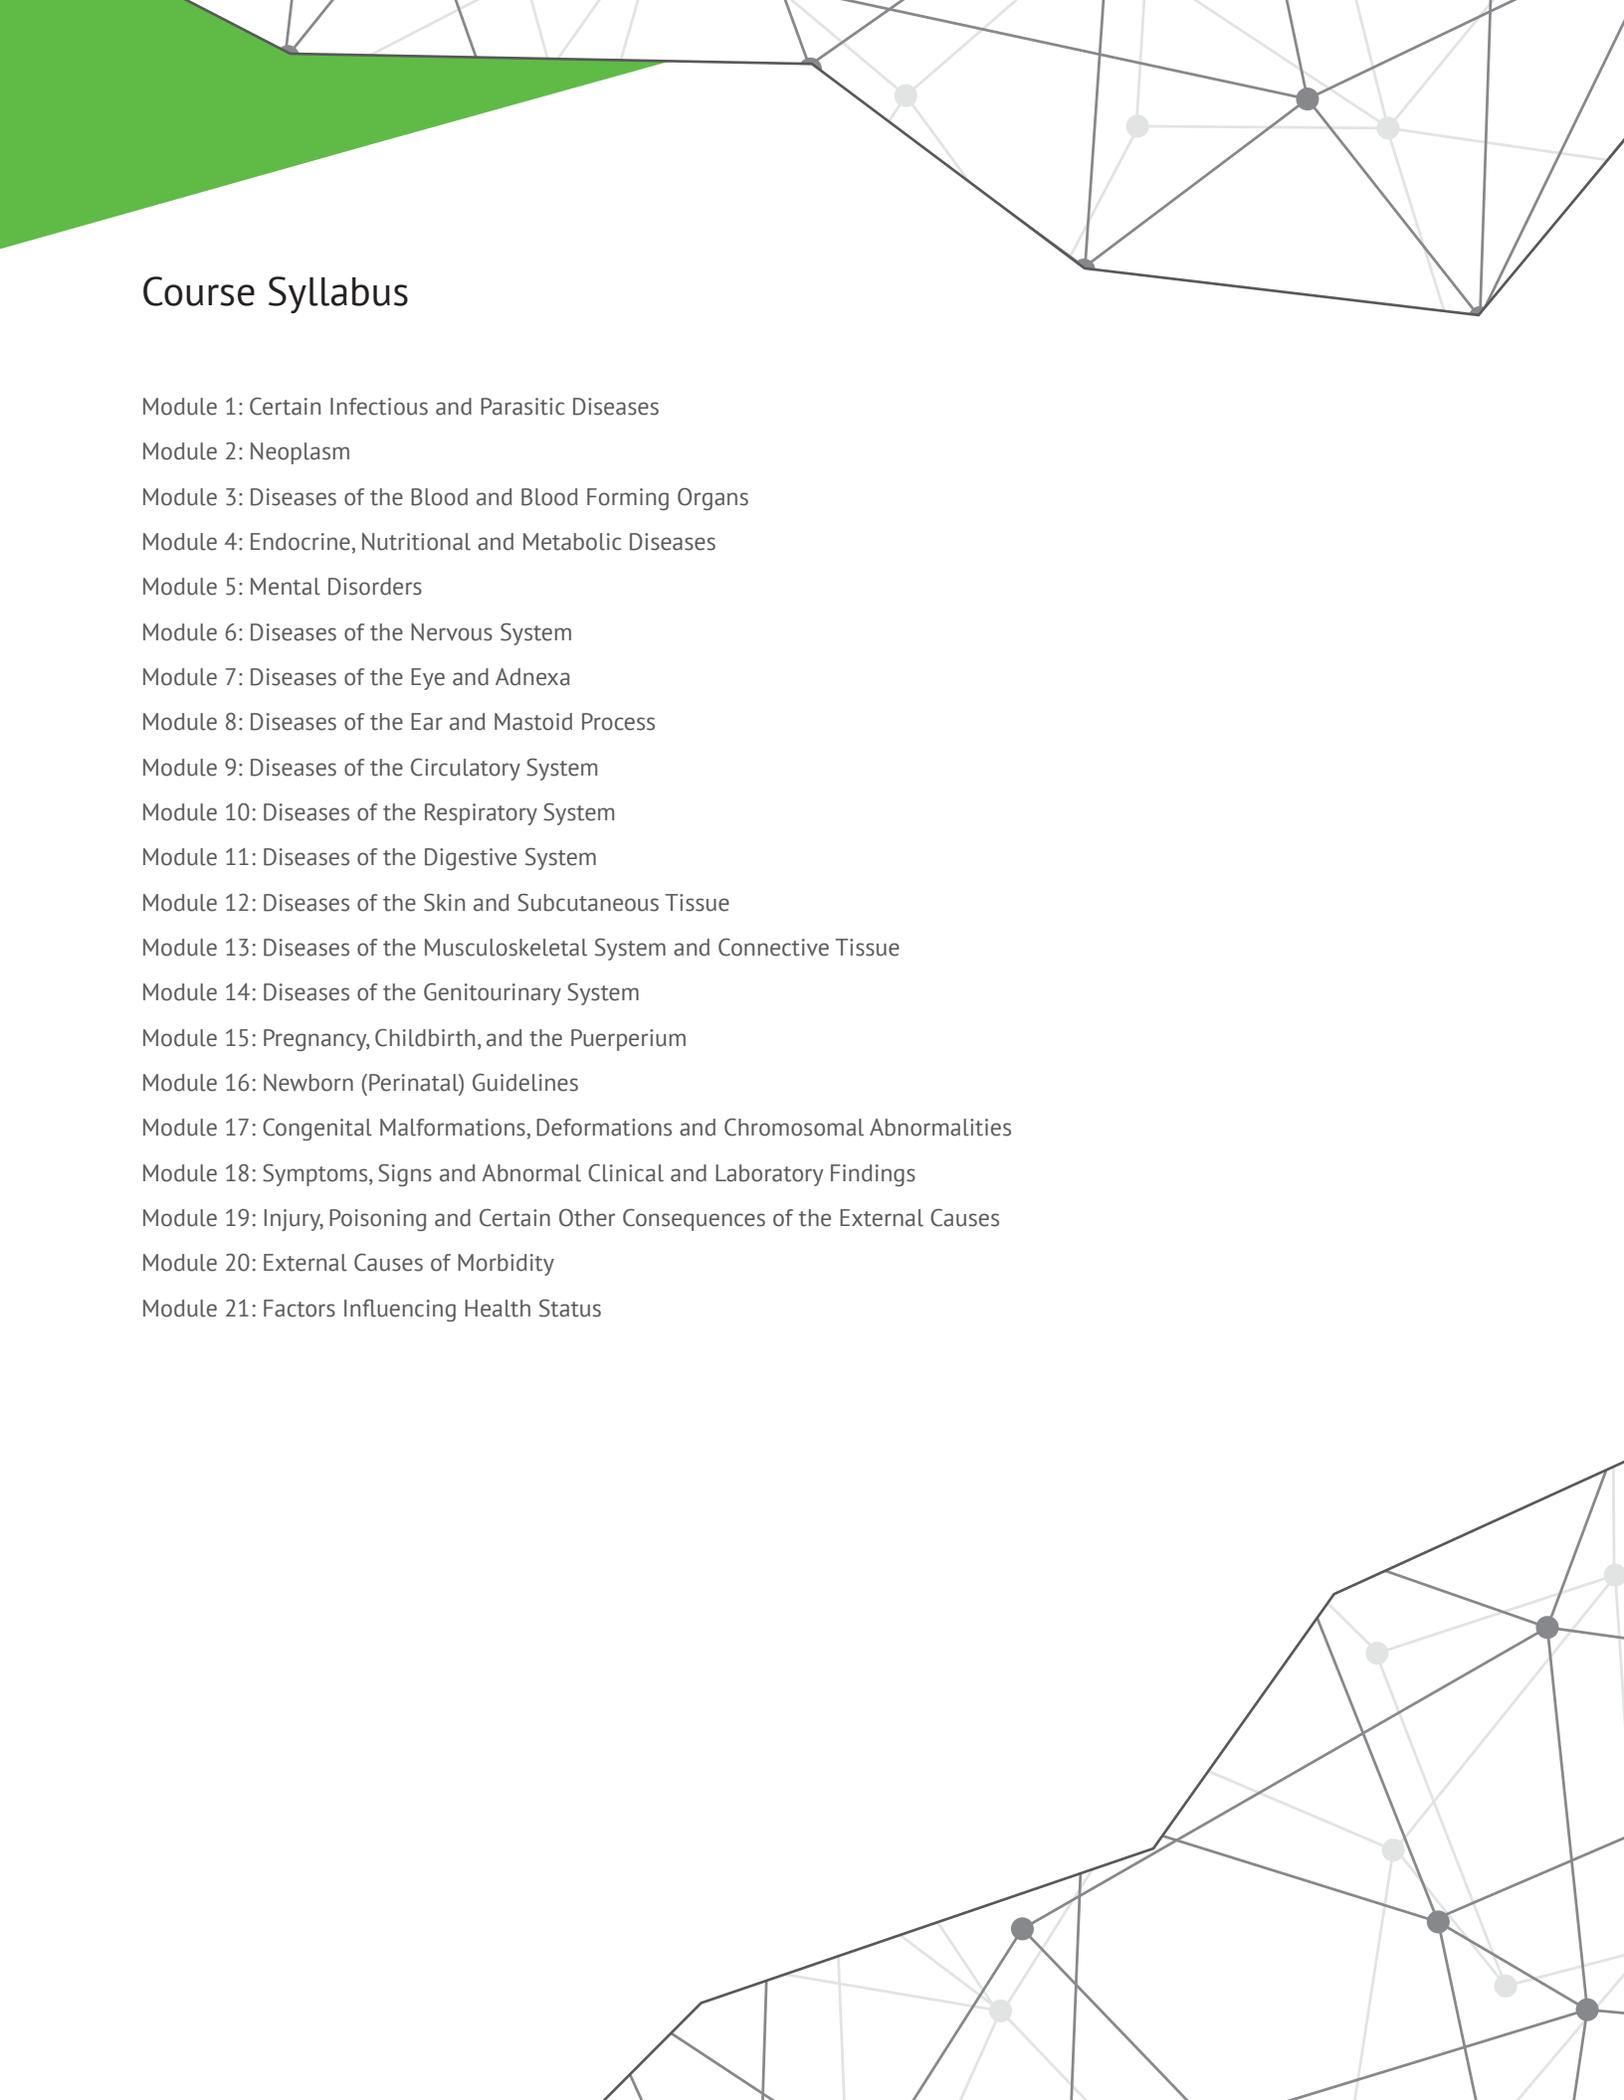

Evolve e-Learning Solutions has designed a world class Learning Management System (LMS). This system allows you to interact and collaborate with other students and Evolve e-Learning Solutions employees, form study groups, engage in discussions in our NOW@ Forums, rate and "like" different courses and stay up to date with all the latest industry knowledge through our forums, student contributions and announcement features.

### Flash Cards & Educational Games

Evolve e-Learning Solutions knows that education is not a one size fits all approach. Students learn in different ways through different tools. That is why we provide Flash Cards and Education Games throughout our courses. This will allow you to train in ways that keep you engaged and focused. Each course will have dozens of Flash Cards so you can sharpen your skill-sets throughout your training as well as educational games designed to make sure your retention level of the materials is extremely high.

### Navigation and Controls

Evolve e-Learning Solutions knows that education is not a one size fits all approach. Students learn in different ways through different tools. That is why we provide Flash Cards and Education Games throughout our courses. This will allow you to train in ways that keep you engaged and focused. Each course will have dozens of Flash Cards so you can sharpen your skill-sets throughout your training as well as educational games designed to make sure your retention level of the materials is extremely high.

# Course Syllabus

Module 1: Certain Infectious and Parasitic Diseases

Module 2: Neoplasm

Module 3: Diseases of the Blood and Blood Forming Organs

Module 4: Endocrine, Nutritional and Metabolic Diseases

Module 5: Mental Disorders

Module 6: Diseases of the Nervous System

Module 7: Diseases of the Eye and Adnexa

Module 8: Diseases of the Ear and Mastoid Process

Module 9: Diseases of the Circulatory System

Module 10: Diseases of the Respiratory System

Module 11: Diseases of the Digestive System

Module 12: Diseases of the Skin and Subcutaneous Tissue

Module 13: Diseases of the Musculoskeletal System and Connective Tissue

Module 14: Diseases of the Genitourinary System

Module 15: Pregnancy, Childbirth, and the Puerperium

Module 16: Newborn (Perinatal) Guidelines

Module 17: Congenital Malformations, Deformations and Chromosomal Abnormalities

Module 18: Symptoms, Signs and Abnormal Clinical and Laboratory Findings

Module 19: Injury, Poisoning and Certain Other Consequences of the External Causes

Module 20: External Causes of Morbidity

Module 21: Factors Influencing Health Status
